Summary

Full Stack Web Developer with a strong foundation in MERN Stack, Java, Data Structures Algorithms, and modern web development. Hands-on experience building responsive web applications, REST APIs, authentication systems, and AI-based projects. Solved 200+ LeetCode problems, demonstrating strong problem-solving and analytical skills. Seeking an entry-level role to apply technical expertise and grow as a software developer.

Technical Skills

Languages: Java, JavaScript, SQL

Frontend: HTML5, CSS3, JavaScript, React.js, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, Authentication, CRUD Operations

Databases: MongoDB, MySQL

Core CS: Data Structures and Algorithms, Object-Oriented Programming

Tools: Git, GitHub, Postman, IntelliJ IDEA, Visual Studio Code

Projects

Moody Player – AI-Powered Music Player

- Built an AI-powered music player using the MERN stack that detects user emotions through facial expression recognition and plays mood-based songs.
- Integrated real-time webcam-based emotion detection and personalized music recommendation functionality to deliver mood-based content.
- Developed RESTful APIs using Node.js and Express.js and managed application data with MongoDB.
- Implemented core music-player functionality including play/pause, playlist management, and responsive user interface components.

Airbnb Website Clone – Full Stack Team Project

- Collaborated in a team to build a full-stack Airbnb-style web application with property listings, booking workflows, user authentication, reviews, and responsive user interfaces.
- Developed secure user authentication and authorization with protected routes, session management, and role-based access for application features.
- Implemented complete CRUD functionality for property listings, including creating, viewing, updating, and deleting listings with MongoDB persistence.
- Built property search, listing details, booking, review, and user-management workflows and integrated them through RESTful APIs.
- Designed and integrated the frontend with Node.js/Express.js backend services, handled database operations with MongoDB, and implemented responsive layouts for a seamless user experience.

Awards & Certifications

- **NPTEL Certificate – Programming in Java:** Completed certification covering Core Java, Object-Oriented Programming, Exception Handling, and Collections.
- **Data Structures & Algorithms Certificate – Sheryians Coaching Institute:** Developed problem-solving proficiency in Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Recursion, and Algorithmic Problem Solving.
- **MERN Full Stack Developer Certification:** Completed hands-on training in MongoDB, Express.js, React.js, and Node.js through full-stack web application development.
- **LeetCode:** Solved 200+ Data Structures and Algorithms problems using Java.

Education

Bachelor of Technology (B.Tech) 2023 · 2027 | CGPA: 7.65/10

Sagar Institute of Research and Technology, Bhopal, M.P.

Senior Secondary (Class XII) 2023 | Percentage: 86.6%

Board of Secondary Education, Madhya Pradesh

Secondary (Class X) 2021 | Percentage: 94%

Board of Secondary Education, Madhya Pradesh
